Lester Snow  
Executive Director, CALFED  
1416 NINTH ST.  
SACRAMENTO, CA 95814

Dear Mr. Snow,

This is a response to the revised CALFED plan.

I am strongly against raising dams or building ~~new~~ offstream storage reservoirs. I think this program creates huge diversions of water from the Sacramento river. After spending the morning rafting with my father & my sister, I can call California's water nothing but precious.

I encourage CALFED to expand water efficiency, conservation & reclamation programs rather than new dams & canals. Obviously, new agriculture is imperative to the health of California's water.

I do stand behind restoration in the central valley; especially the the removal of dams.

Thank you for your consideration of my views, I look forward to your response.  
Sincerely,

Amarina Kealoha
